

HOUSE OF LIGHTS CHURCH/MINISTRY
ENGAGEMENT PROGRAMME

Lets Partner with you!

**Grow Your Church • Develop Your Ministry
Transform Your Community**

The House of Lights and its Leadership

The House of Lights ministry is based in the United Kingdom with three Mission Hubs, three local assemblies, about thirty para-church-missions, a dozen networks and an international arm that trains and equips church and ministry leaders in nations.

We are a ministry to the body of Christ raised to train and help ministers and ministry gifts across the nations in church planting, discipleship and missions.

We have active partnerships and operations in the United States, United Kingdom, Europe and Africa. Our main objectives everywhere we work is to

- **Develop emerging leaders** of the body of Christ and help them become effective ekklesias (connected communities of christians that have spiritual and socio cultural impact in their regions)
- **Help in the reformation** of the whole body of Christ by working with ministries and churches to optimize in their delivery of ministry, care of the saints and transformation of their society.

House of Lights has helped many churches build and strengthen their operations in the following areas:

- Outreaching
- Discipleship
- Pastoral systems
- Administration
- People and process management
- Synergy between their operations (internal and external)
- Community impact and relevance

The House of Lights and its Leadership

The ministries and church communities that we have worked with have been blessed with **clarity, definition, spiritual growth, healthier systems, doctrinal and prophetic balance**. House of Lights Ministries can help you with Church Planting, Church growth, leadership and ministry development and Cross culture Missions.

Eugene Adebayo Ajayi leads the House of Lights mission; he is an author, church planter, trainer, international conference speaker, instrumentalist and psalmist with over 20 years experience in ministry.

He has an apostolic prophetic assignment to help ministries, churches and communities of believers reflect the pattern of the Acts of Apostles in doctrinal purity, fellowship and power through discipleship and kingdom operations.

He is helping the body of Christ in regions by raising, training, connecting, empowering leaders in the 18-40 generation to become Ekklesias and working with established churches, ministries and mission in regions to.

Under his leadership The House of Lights has had unique success in breaking through hard to reach communities in very innovative ways.

Engagement Programme

For Church Planting, Growth & Cross Cultural Mission

If the ax is dull and the man does not whet the edge, he must put forth more strength; but wisdom helps him to succeed.

Ecclesiastes 10:10

Church planting and ministry is a precise art and science requiring application of the right principles, in the right measure, in the right way, with the right people and guided through to fruition.

Factors that affect the planting and growth of a church or ministry are dynamic, but can usually be pinned down to **People**, **Materials** and **Methods**. The quality and interaction of these three will determine if your operation will be a thriving mission or a struggling one.

The House of Lights team have over twenty years experience of studying best practices of church planting and growth, coupled with a divine mandate to strengthen the church systems for dynamic kingdom missions. We have taken the ministry of 'church engineering and configuration' to several nations with great results.

Our Engagement packages consists of consulting and training aimed to improve the **People**, The **Materials** and **Methods** of Ministry. They are scalable, adaptable and very effective, irrespective of size or age of church. They are always specific to the need of the community and the vision of the leadership. The training often prioritises discipleship, discipling, ministry, leadership development and operational excellence

Using our services will build the capacity of your **People**, enhance your materials or improve your methods, and increase your fruit in saving souls, discipling saints and transforming communities.

How we work

Usually four stages

1

Assessment

We will have sessions with the leadership of the church or ministry to learn the pastors vision, assess the people available as the workforce, the terrain of the ministry, the unique opportunities and its challenges.

2

Recommendation

We put together a plan for the training and development program based on what we are learning from our assessment sessions. The recommendations are proposed, agreed on and set against a time line.

3

The Workshops

We deliver the programmes working alongside the leadership. The frequency and intensity will depend on need, request, availability and feedback.

4

Reviews

We check the progress continuously against the vision of the leadership and make sure that the ministry is getting the right results.

Who needs our services?

- Any ministry with a minimum of 5 active members who are committed to the great commission but are struggling to build and equip their workforce to fulfill their vision
- Local, regional and denominational Churches and church networks. We have worked and still work with numerous regional, national and international alliances to help them synergize their communities and operations to become meaningful in their witness together.
- Local churches and ministries interested in discipleship and cross cultural missions we have helped many churches and regional alliances to develop unique effective **reach** and **discipling** operations beyond their church walls to

1. **Families** (cross familial)
2. **Diverse ethnic groups** (cross ethnic)
3. **Young adults** (cross generational)

Benefits of our engagement

You will derive the following benefits and more

- Your church/team of leaders will learn to see ministry in the right context and provide a reliable workforce and support base for your ministry
- They will learn to recognise and respond intelligently to opportunities for ministry within and without your church
- They will learn how to positively use influence within the ministry, and protect it from abuse
- They will learn the pastors vision and be trained to work as members of his team to deliver it
- It will strengthen your Church spiritually and increase your capacity to witness
- The leadership will be free to do more strategic work as your teams rise to take more responsibilities

Here are a few other areas where we may be of service. These are not exhaustive, but highlights other areas we could work with you.

- Inspirational teaching and exhortation at your assemblies
- Developing your youth and young adult ministry
- Working with the families and relationship ministries
- Working with you to develop your men and women ministries
- Consulting on developmental issues
- Assisting in developing cross culture strategies for your church or mission
- Training in ministry for your ministers
- Helping you achieve your aims in ministry, in good time, with higher quality

Next Steps

Give us a call, or send an email! If you feel your ministry's or churches needs are not covered in this brief, we would still love to hear from you so we can continue to develop our services.

We hope to have the privilege of working with you. Please do not hesitate to request further information, book an assessment, or request a visit or any other ministry related service.
